

## SOLUTION TO SPRING, 2009 NEWSLETTER PUZZLE

Fill the large pot then use it to fill the smaller pot. That will leave two quarts in the larger pot.

Empty the small pot then pour the two quarts from the larger pot into the smaller pot.

Fill the large pot then use it to fill the smaller pot. It will only take three more quarts leaving four quarts in the larger pot.

WINNER SELECTED AT RANDOM FROM THE MANY CORRECT ANSWERS:

Donald Stevens, P.E.  
Manager, Restoration Design  
The Louis Berger Group, Inc.
